Whether you select a one or two bedroom unit, you may use your own furnishings and decorate as you wish. An efficient, full kitchen and a living room with access to patio or balcony offer outside living space for visiting and relaxation. Some storage space is available on the premises.

The main dining room provides a comfortable gathering space with cozy furniture, a fireplace and a large screen television. It is the perfect area to spend time with family and friends.

Throughout the building, you will notice the vast amount of natural light that brings all the wonderful attributes of the north woods inside. In addition, the Town Center, a fitness room and spa offer opportunities for indoor activity, exercise and enjoyment—all without leaving the building.

Water’s Edge offers everything you may need to live comfortably, with the security of having medical care immediately available.
The word home means so much to us. It’s where the familiar things in our lives can be found. It’s a safe place where you have control over your daily routine, and where you find privacy and comfort.

Home can mean all those things at Water’s Edge, with care and convenience added. Hayward Area Memorial Hospital is connected through a central hallway with medical clinics, a long term care center and rehabilitation services all under the same roof.

A Town Center featuring a beauty/barber shop, bistro and chapel are located in the complex and transportation is available for community outings.
